### LETTER OF RECOMMENDATION

It is with immense pleasure, that I am writing this letter of recommendation for Mr. Mitra Boga in support of his application to pursue internship in your esteemed organisation. During my period of acquaintance with him, I taught him Communication skills in English for one academic year and my personal standpoint is that, Mitra is an independent thinker seeking to learn more and has shown great promise by venturing beyond the syllabus's scope. He has a good hold on the basic principles underlying this course and paid extra efforts on learning concepts in communication and as well as in interpersonal skills.

Mitra has a rare blend in writing and speaking skills with tremendous potential and exceptionally good at gauging other people's level of knowledge and attitudes. His never-ending quench for learning and ability to reason has impressed me the most. I have found his ideas to be objective, diverse and has a good reasoning ability. Based on his performance and interaction, I can place him in top 3% of all my students.

I strongly feel that he has very good research potential and would make an ideal graduate student in Computer Science. If you have any questions about this recommendation, please do not hesitate to contact me. I will gladly try to help.

Warm Regards,

Dr. Ranjani V
